DIRECTION OF FOREIGN ECONOMIC ACTIVITY OF UKRAINE**

Anna Michaliyk, student of Economic faculty

Olena Koval, PhD in Economics, As. Prof. of Economic Theory Department,
National University of Life and Environmental Sciences of Ukraine

Process of Ukraine's accession to the world markets began from the WTO entrance on November 30, 1993 by submitting the official application of the Government of Ukraine about its intention to join the GATT. The Protocol on Ukraine's accession to the WTO was signed on February 5, 2008 in Geneva and ratified by the Verkhovna Rada on April 10, 2008. On April 16, 2008 the President of Ukraine V.Yushchenko signed a Law on the ratification of a Protocol on Ukraine's accession to the WTO. According to the WTO procedures Ukraine became a full-fledged member of the Organization on May 16, 2008. Ukraine's WTO membership provided necessary conditions and opened new prospects for development of the national economy. As a WTO member Ukraine on absolutely equal conditions with the other member states is directly involved into creation of new world market trade rules within the current round of multilateral trade negotiations for the purpose of the maximum consideration of the national interests in the trade and economic field. Having acquired the WTO membership Ukraine received the right to use the WTO disputes settlement mechanism that promotes the fair solution of any trade quarrels between the member states concerning observance of provisions of the WTO agreements [1].

According with the Law of Ukraine On foreign economic activity one of the main type of foreign economic activity is scientific, scientific and technical, scientific and production, production, educational and other cooperation with foreign business entities [2]. Nowadays the scientific activity of national institutions is characterized by the participation in the Horizon Europe. To find project partners for the forthcoming calls in Horizon Europe - Cluster 6: Food, Bioeconomy, Natural Resources, Agriculture and Environment Educational-Scientific Laboratory of Bioeconomics, Faculty of Agrarian Management of NULES in Ukraine participate in different international events. The laboratory focuses on following Horizon Europe – Cluster 6 calls: Biodiversity and Ecosystem Services; Fair, healthy and environmentally-friendly food systems from primary production to consumption; Circular economy and bioeconomy sectors; Clean environment and zero pollution; Land, ocean and water for climate action; Resilient, inclusive, healthy and green rural, coastal and urban communities;

Innovative governance, environmental observations and digital solutions in support of the Green Deal [3].

The actual project of Association for European Life Science Universities [4] Community of Practice for Bioeconomy Education (ICA CoP Bio-Edu) is Status and Future of Bioeconomy Education. The project outcomes are oriented on the support innovation in education for the Sustainable Circular Bioeconomy, how the projects have impacted on the different target groups and identification of the need for new developments in education for the sustainable circular bioeconomy.
